

THIXOTROPIC FORMULA

Bovimec®

Etiqueta Azul 3.15%

Injectable Suspension

The BLUE LABEL of ivermectins

High concentration ivermectin with extra long action for the control and treatment of internal and external parasites.

Veterinary use

Bovimec®
Etiqueta Azul 3.15%
Injectable suspension

SHAKE BEFORE USE
JUST 2 APPLICATIONS PER YEAR

Bovimec® Etiqueta Azul 3.15% provides parasite control for up to 140 days, reducing treatment frequency and minimizing animal stress.

* Varies depending on the type of the parasite.

LONG-TERM EFFECTIVENESS

Due to its thixotropic formulation, ivermectin is slowly released from the injection site, extending its residual effect up to 3 times longer than conventional ivermectin.

* Compared to 1% ivermectin.

TARGET SPECIES

Bovimec® Etiqueta Azul 3.15% is specially formulated for beef cattle. It is also indicated for camelids, sheep and goats.

Thanks to its thixotropic formulation, it is slowly released from the injection site.
