Gallomix®

Tablets

Multivitaminic supplement

agrovvetmarket s.a.

FORMULATION

Each tablet contains:

Swine liver powder.....	10 mg
ATP (adenosine triphosphate).....	60 mcg
L-lysine Hcl.....	10 mg
DL-methionine.....	2 mcg
L-tryptophan.....	2 mcg
L-cysteine Hcl.....	2 mcg
L-threonine.....	3.5 mcg
DL-isoleucine.....	4 mcg
L-arginine Hcl.....	5 mcg
DL-phenylalanine.....	4 mcg
DL-valine.....	6 mcg
L-leucine.....	6.5 mcg
DL-carnitine.....	5 mcg
Monosodic glutamate.....	5.5 mcg
Vitamin A (acetate retinil).....	0.5 mg
Vitamin C (sodium ascorbate).....	2.25 mg
Vitamin D ₃ (cholecalciferol).....	0.1 mg
Vitamin E (dl-alpha-tocopherol acetate).....	3 mg
Vitamin K ₁ (menadione SB).....	0.06 mg
Vitamin B ₁ (riboflavin base).....	0.25 mg
Vitamin B ₂ (pyridoxine Hcl).....	0.15 mg
Vitamin B ₃ (thiamine mononitrate).....	0.3 mg
Vitamin B ₁₂ (cyanocobalamin).....	0.25 mg
Vitamin B ₉ (folic acid).....	0.02 mg
Calcium pantetonate.....	0.5 mg
Niacinamide.....	2 mg
Calcium carbonate.....	40.6 mcg
Zinc sulphate.....	0.89 mg
Sodium glicerophosphate (phosphorous).....	15 mg
Cobalt sulphate.....	0.3mg
Iron sulfate.....	0.323 mg
Magnesium sulphate.....	0.25 mg
Iodine (potassium iodine).....	0.021 mg
Manganese sulfate.....	4.166 mg
Sodium chloride.....	2.5 mg
Potassium chloride.....	1.5 mg
Excipients.....q.s.ad.....	one tablet

INDICATIONS

Multivitaminic supplement with minerals and aminoacids enriched with liver, carnitine, and ATP. Indicated in all cases of avitaminosis on fighting cocks, combat preparation, for growing chicks, as diet supplement, in reproductive hens, studs and when the supplementation of any of the formulation compounds is required. The carnitine addition allows the fat metabolism converting them in energy, which together with ATP addition allows an immediate energy disposition, optimizing the cocks performance.

DOSAGE AND ADMINISTRATION

Oral route.

Fighting cocks: 1-2 tablets daily.

For preparation prior to fight: 3 tablets daily for 5 days before the fight.

Studs and Chickens: 1-2 tablets every 3 days.

Breeding birds: 1-2 tablets every 3-5 days.

Other birds: 1 tablet per kg b.w.

PRECAUTIONS AND RECOMMENDATIONS

Keep in a cool and dry place, protected from light. Store among 15° to 25° C. Keep out of reach of children and domestic animals.
