New

Hepaviar® Px

Balanced hepatoprotective, lipotropic, and detoxifying combination.

Premix

The **liver-boosting** agent for production animals.

- Protects liver cells from toxic agents.
- Promotes the mobilization of fats accumulated in the liver.
- Highly digestible ingredients.

+ Silymarin
+ Artichoke dry extract
+ DL-Methionine
+ L-Lysine
+ Inulin
+ Magnesium sulfate heptahydrate
+ Betaine

Avivet®

Hepaviar® Px

Balanced hepatoprotective, lipotropic, and detoxifying combination.

Premix

Silymarin boosts protein synthesis for faster liver recovery while safeguarding cell membranes against harmful toxins.

Artichoke is a natural liver protectant that facilitates toxin elimination. Its components, cynarin and chlorogenic acid, provide choleretic and cholagogue activity, along with a diuretic effect.

Methionine and Betaine act as key carnitine precursors, removing metabolic waste and preventing fat buildup in the liver and arteries.

INDICATIONS

- Acute and chronic hepatitis.
- High-energy diets, especially in laying hens.
- Prevention of Fatty Liver Syndrome and treatment of mycotoxicosis.
- Prepares the flock for forced molting, stimulates appetite, and optimizes feed conversion.
- Supportive therapy in conditions compromising proper liver function.

DOSAGE AND ADMINISTRATION

For oral administration, during strategic phases or the entire breeding cycle: 200-350 g / mt of food (2g - 3.5g / 10 kg feed).
