ATREVIA[®]

Fluralaner

VERSA GEL

CONTROL IS
IN YOUR HANDS.
YOU CHOOSE.

Controls fleas, ticks, and mites

Precision, control, and certainty with every dose

ATREVIA[®]

VERSA GEL

Highly palatable bioadhesive gel

As a vet,
the protection timeline
is your choice

Atrevia[®] Versa Gel is a long-acting, easy-to-apply bioadhesive ectoparasiticide gel. Its pleasant flavor and high degree of adhesion to the oral mucosa in dogs, which facilitates dosing. It can protect dogs for **1 or 3 months** (depending on the dose).

Composition

Atrevia[®] Versa Gel contains Fluralaner, an isoxazoline that serves as a potent parasiticide for the control of fleas, ticks, and mites in dogs. It blocks the transmission of the parasite's nerve impulses. Affected fleas, ticks, and mites become paralyzed and die rapidly.

Atrevia[®] Versa Gel, puts **dosing control** back in your hands. It reduces reliance on multiple product presentations and adds value to every consultation.

Effective against:

Fleas

- *Ctenocephalides felis*
- *Ctenocephalides canis*

Ticks

- *Rhipicephalus sanguineus*
- *Ixodes ricinus*
- *Ixodes hexagonus*
- *Ixodes scapularis*
- *Ixodes holocyclus*
- *Dermacentor reticulatus*
- *Dermacentor variabilis*

Mites

- *Demodex canis*
- *Sarcoptes scabiei var. canis*
- *Otodectes cynotis*

Benefits

THERAPEUTIC FLEXIBILITY

You define the duration of action: **1 or 3 months** of protection based on your clinical judgment. Maximum control and absolute decision-making in every treatment.

FAST AND EFFECTIVE PROTECTION

Atrevia[®] Versa Gel begins its action within 90 minutes, eliminating fleas within 8 hours of application.

BROAD SPECTRUM OF ACTION

Atrevia[®] Versa Gel provides lethal action against fleas, ticks, and mange mites. Continuous use assists in the control of immature stages.

SMART DOSING IN A MULTIDOSE SYRINGE

The graduated syringe allows for precise and flexible dosing for multiple patients with a single product, optimizing in-clinic use and reducing the need to manage several stock presentations.

EASY ADMINISTRATION

Atrevia[®] Versa Gel is an easy-to-administer bioadhesive ectoparasiticide gel, thanks to its pleasant flavor, high degree of adhesion to the oral mucosa, and its exclusive graduated "easy-dose" syringe system.

WATER RESISTANT

Due to its oral route of administration, it can be used on the same day as bathing. Its efficacy does not decrease upon contact with water. Say goodbye to worries.

Dosage

Atrevia® Versa Gel is administered orally; the dose is calculated based on the desired duration of protection and the dog's weight.

Yield (kg/bw) by Commercial Presentation vs. Protection Period					
Protection Period	Dose		Atrevia® Versa Gel Yield by Commercial Presentation		
	mg/kg	kg per mL	4 mL	7 mL	15 mL
1 month	10 mg/Kg	1 mL per 7.5 kg	30.0 kg	52.5 kg	112.5 kg
3 months	25 mg/Kg	1 mL per 3 kg	12.0 kg	21.0 kg	45.0 kg

* Each 1 mL of Atrevia® Versa Gel contains 75 mg of Fluralaner.

** Do not use in dogs under 8 weeks of age or weighing less than 2 kg. Read the package insert before use.

ATREVIA® VERSA GEL GIVES YOU BACK CONTROL OVER DOSING. THE CHOICE IS YOURS.

Atrevia® Versa Gel, provides greater versatility for the veterinarian and the pet owner by adjusting the dose according to the desired duration of protection.
