Panaural® 6X

Ofloxacin • Lignocaine • Betamethasone • Clotrimazole

Panaural® 6X is formulated exclusively for the treatment of external otitis in dogs and cats. Its synergistic combination **provides relief and control of all signs from the first application.**

Broad spectrum of action against bacteria and fungi.

Potent anti-inflammatory. Reduces pain and itching.

Topical drop administration that allows for exact dosage.

Versatility of use for dogs and cats.

Indications

Treatment of infections of bacterial, mycotic, and/or allergic origin.

Its spectrum of action includes:

Malassezia sp, Pseudomonas sp, Staphylococcus sp, Trichophyton rubrum, Trichophyton mentagrophytes, Epidermophyton floccosum, Microsporum canis, Candida spp, among others.

Apply Panaural® 6X directly to the ear canal and provide a light massage at the base of the ear.
