Artrosamine® Advanced

PREMIUM chondroprotector in chewable tablets

free
to move

Contains: MEMBRAPET Eggshell Internal Membrane, Glucosamine, Chondroitin, Hyaluronic acid, Collagen, Methyl Sulfonyl Methane, Natural Plant Extracts, Biotin, Vitamins, Minerals and Amino Acids.

Artrosamine® Advanced

Premium Integral chondroprotector for joints

- ✓ Maintains healthy joints and cartilage.
- ✓ Coadjuvant in the treatment of osteoarthritis and lumbar problems.
- ✓ Helps tendon regeneration and articular cartilage protection.
- ✓ Prevents the development of joint pathologies.

Increased joint protection and support

Collagen regenerates and prevents possible deterioration or wear of cartilage surfaces.

Natural joint enhancer

MEMBRAPET® eggshell inner membrane is the only natural extract that contains in itself more than 500 types of proteins with high biological value. Its components are involved in reducing inflammation and pain, improving flexibility and thus mobility, lubricating joints, reducing the effects of osteoarthritis or arthritis, nourishing cartilage and preventing possible joint problems.

Relieves pain associated to the joint

Methyl sulfonyl methane reduces joint inflammation by increasing cell permeability, and hyaluronic acid reduces joint friction. Both together relieve pain associated with movement.

Nourishes and lubricates joints

Chondroitin and **hyaluronic acid** maintain the synovial fluid in the joint and promote its elasticity and viscosity. In combination they maintain an aqueous balance in the joint that improves the displacement.

Dampens the forces of motion

The administration of **glucosamine, chondroitin and hyaluronic acid** promotes a strong and functional joint, which allows maintaining a correct movement.

Dosage and route of administration

It is administered orally according to the weight of the dog as indicated.

⚠ It is recommended to dose with food.

	Artrosamine® Advanced Mini & Small		Artrosamine® Advanced Medium & Large	
Weight	Up to 10 Kg	10 - 20 Kg	20 - 30 Kg	> 30 Kg
Dose	 1 Tab.	 2 Tab.	 1 Tab.	 2 Tab.
