Shiny and soft coat.

Delicious liver flavor.

## Specific support for each stage

**Puppy**  
Growth and development

**Adult**  
Activity and performance

**Senior**  
Vitality and well-being

# Cani -Tabs®

## Calming+Relax 🐾🐾

A natural calming agent with antispasmodic and muscle-relaxing effects. It is indicated as a support in cases of abnormal behaviors and situations of high stress or fear, such as fireworks, separation, and transport, among others.

 VALERIAN  TRYPTOPHAN

-  Reduces stress and promotes relaxation.
-  Increases serotonin levels, decreasing aggressive behaviors.
-  Acts as a melatonin stimulant, promoter, and sleep regulator.

# Cani -Tabs®

## Immunity & Allergies 🐾

A natural histamine blocker with an effect on the production and release of inflammatory mediators, allergies, and autoimmune diseases that improves their quality of life.

 GREEN TEA  TURMERIC  CRANBERRIES

-  Antioxidant and anti-inflammatory, strengthening the immune system.
-  Provides support during allergic and vaccination processes.
-  Controls and reduces allergic processes.

# Canī -Tabs<sup>®</sup>

## Omega 3 + DHA & EPA

A highly bioavailable source of animal-derived Omega 3 fatty acids. It provides adequate levels of EPA and DHA, essential compounds for comprehensive health, with anti-inflammatory and antioxidant effects.

 DHA 120 MG  EPA 180MG

Indispensable  
for each stage

### BENEFITS

-  Promotes healthy skin and a shiny coat; a key ally in cases of dermatitis.
-  Strengthens the neurological system, prevents cognitive deterioration, and improves oxygenation.
-  Promotes the regulation of estrus and gestation.
-  Maintains the proper function of the urinary, immunological, cardiovascular, and joint systems.

EPA and DHA work together to promote good health at every stage

- Puppy**  
Aids in better development of the brain and nervous system and stimulates early learning. 
- Adult**  
Intervenes in the proper functioning of the renal system and controls cholesterol and triglycerides. 
- Senior**  
Participates in the correct functioning of the heart and maintenance of the renal system. 
- Pregnant**  
Provides health and well-being to the pregnant mother and supports fetal development. 

# Canī -Tabs<sup>®</sup>

## Skin+Coat

A combination of biotin, zinc, vitamin A, methionine, and other components that promote the healthy development and maintenance of the skin, strengthen the root, and provide nutrients for a natural shine.

 VITAMINS  AMINO ACIDS  MINERALS.

-  Promotes healthy and moisturized skin.
-  Stimulates keratin synthesis, providing greater shine and strength to hair and nails.
-  Stimulates collagen synthesis, improving skin elasticity.

# Canī -Tabs<sup>®</sup>

## Healthy Bones Ca+P

Helps strengthen bones and joints by providing the optimal daily amount of calcium, phosphorus, and vitamin D, stimulating the development and maintenance of bones and teeth at all stages of growth.

 VITAMINS  MINERALS.

-  Provides support for calcium and phosphorus deficient diets.
-  Promotes adequate development by strengthening bones and teeth.
-  Maintains a healthy gestation and lactation.

-  DANDELION
-  COENZYME Q10

-  Support for cardiac and arteriosclerosis pathologies.
-  Regulates cardiac pressure and irrigation.
-  Antioxidant, antithrombotic, and diuretic.

# Canī -Tabs®

## Brain & Neuro

Neuroprotective supplement that optimizes the functioning of the nervous system at all life stages. It stimulates essential processes like the synthesis and activity of neurotransmitters, myelination processes, and enzymatic action.

-  GINKGO BILOBA
-  VITAMINS
-  MINERALS
-  AMINO ACIDS

-  Promotes memory, attention, and learning.
-  Stimulates cerebral irrigation.
-  Neuroprotective, antioxidant, and anti-inflammatory.

# Canī -Tabs®

## Repro+

Promoter of the reproductive system, gestation, and lactation. Optimizes reproductive performance and improves conditions for fetal development. Contains key components like selenium, folic acid, arginine, and vitamin A.

-  VITAMINS
-  AMINO ACIDS
-  MINERALS

-  Protects the reproductive system from oxidative stress.
-  Stimulates fetal development.
-  Supports estrus and fertility, promoting gestation.

# Canī -Tabs®

## UT Support

Anti-inflammatory, antimicrobial (proanthocyanidins and D-Mannose), and diuretic (mannitol) combination that protects the membranes of the genitourinary system, promoting its function and overall health.

-  CRANBERRIES
-  SWEET POTATO
-  PUMPKIN
-  SAW PALMETTO

-  Reduces the risk of urinary infections and stones.
-  Antioxidant and anti-inflammatory for the genitourinary system.
-  Stimulates the function of the bladder and urethra. Support for prostatic hyperplasia and lower tract therapies.
