S-Adenosyl Methionine Disulfate Tosylate,  
Silybin equivalent to Silybin (A+B) and  
Vitamin E

# DenasyI® E

## Nutritional Supplement

BOOSTS THE **MASTER ANTIOXIDANT** FOR HEALTH AND VITALITY

| Each tablet contains                                               | DenasyI® E<br>Small | DenasyI® E<br>Medium & Large |
|--------------------------------------------------------------------|---------------------|------------------------------|
| S-Adenosyl Methionine Disulfate Tosylate<br>(equivalent to S-SAMe) | 100 mg              | 310 mg                       |
| Silybin (equivalent to Silybin (A+B))                              | 26 mg               | 90 mg                        |
| D-Alpha Tocopherol Acetate (Vitamin E)                             | 90 IU               | 200 IU                       |

### Indications

- ✓ Supports hepatic efficiency, promoting the recovery and repair of liver damage.
- ✓ Indicated when it is necessary to increase hepatic glutathione levels and to maintain or improve healthy liver function and detoxification.
- ✓ Facilitates digestion and nutrient absorption.
- ✓ Increases overall antioxidant levels.
- ✓ Promotes brain health.
- ✓ Support in cases of hepatic lipidosis, cholangiohepatitis, chronic hepatitis, or secondary to treatments that may damage the hepatic system, compromised liver function due to intoxications, among other reasons.

### Dosage and Administration

For daily oral administration. For optimal absorption, tablets should be administered on an empty stomach, at least one hour before a meal.

#### DenasyI® E Small

| Weight   | Tablets    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| Up to 4.9 kg                                                                                                                                                                   | 1/2 Tab.   |
| 5 kg to 10 kg                                                                                                                                                                  | 1 Tab.     |
| 10 kg to 15 kg                                                                                                                                                                 | 1 1/2 Tab. |

#### DenasyI® E Medium & Large

| Weight  | Tablets |
|--------------------------------------------------------------------------------------------|---------|
| 15 kg to 30 kg                                                                             | 1 Tab.  |
| > 30 kg                                                                                    | 2 Tab*. |

\*Do not exceed 2 tablets per day

The number of tabs administered may be gradually increased or decreased, as recommended by your veterinarian.
