Solution

Unique
Formula

FH-10 Factor Hepático 10

Vitality and Protection

FH-10 Factor Hepático 10, is a natural liver protector made up of silymarin and artichoke extract, the primary components that aid in the treatment of hepatic conditions. It promotes optimal liver function and protection. Assisting in liver detoxification and shielding against oxidative damage.

DETOX
plus+

Natural liver
cleansing and
detoxification
process

SORBITOL

Acts as a diuretic, enhancing kidney activity during cases of intoxication and liver damage.

CHOLINE

Plays a crucial role in fat metabolism by converting them into phospholipids.

SILYMARIN

Potent stabilizer and protector of hepatocyte membranes; inhibits the entry of toxins into the cell.

BETAINE

Helps prevent fatty liver accumulation.

MAGNESIUM

Acts as a cofactor in enzymatic processes and protein synthesis.

SILYMARIN

(Artichoke extract)
Its chologagic and choleric activity directly influences liver synthesis and secretion functions.

METHIONINE AND LYSINE

Essential for
L-Carnitine
synthesis.

L-CARNITINE

Transports fatty acids to the mitochondria for energy production.

6 IDEAL BENEFITS

NATURAL LIVER PROTECTOR, prevents the fat accumulation of fats in the liver.

DETOXIFIER of the liver and gallbladder.

STIMULANT AND PROTECTOR of the hepatocyte.

PROMOTES bile formation and its drainage.

PROTECTS CELL MEMBRANES by preventing enzyme dispersion.

PREVENTS LIVER DEGRADATION caused by toxins and medication buildup.

FH-10 Factor Hepático 10

Vitality and Protection

FH-10 Factor Hepático 10 is indicated for the prevention and treatment of diseases such as:

- Liver and biliary insufficiency
- Chronic and acute hepatic conditions
- Steatohepatitis
- Liver Cirrhosis
- Cholangitis
- Hepatic lipidosis
- Gastrointestinal disorders
- Therapies involving phenobarbital
- Post-surgical recovery

FORMULA

Silymarin 1.00 mg

Artichoke extract 1.00 mg

Magnesium 0.50 g

Choline Chloride 3.75 g

L-Carnitine 2.50 g

DL-Methionine 1.00 mg

Betaine 0.50 g

L-Lysine 1.00 g

Sorbitol 40.00 g

N-Acetyl-L-Methionine 0.50 g

Excipients q.s.ad 100 mL

DOSAGE AND ADMINISTRATION

Oral administration for 5 to 7 days.

	DOSAGE
Dogs and cats	1 mL/2.5-5 kg – each 12 h.

*1 mL is equivalent to 20 drops

- ! The duration and frequency of the treatment are determined by the veterinarian.
