

Hepato-Ject®

LIVER ACTIVITY ENHANCER

- OROTIC ACID
- THIOCTIC ACID
 - B COMPLEX
- AMINOACIDS
- PHOSPHOLIPIDS PRECURSORS

⚙️ Protects the liver and enhances livestock productivity

Unique formulation with 12 active compounds.

Hepato-Ject®

LIVER ACTIVITY ENHANCER

OROTIC ACID + THIOCTIC ACID + 10 ACTIVE COMPOUNDS

BODY LAB

The liver is one of the most active organs in the body; develops multiple important activities for health. **Hepato-Ject®** stimulates the appetite and enhances the liver functions due to its exclusive formula of 12 active compounds.

REGENERATION

The liver is the only organ has the ability to regenerate. **Hepato-Ject®** helps in this auto function regenerative, preventing future problems.

ADJUVANT IN THE FATTY LIVER TREATMENT

Hepato-Ject®, due to its lipotropic components, allows proper mobilization of fats in the body of the animal, preventing and treating the fatty liver síndrome.

BALANCE OF THE ORGANISM

Hepato-Ject® has beneficial actions on the liver, due to the combination of orotic acid, thioctic acid, B vitamins, amino acids and phospholipid precursors. They achieve the body's balance to improve your livestock's productivity.

PROTECTION AND DETOXIFICATION

The antioxidant function of **Hepato-Ject®** helps in the detoxification process of food, drugs and toxins in the body; stimulating a better liver function.

The complete formula of **Hepato-Ject®** combines orotic acid and thioctic acid with liver protectors and other hepatotropic agents:

- ⚙️ **B complex:** Vitamin B12 (Cyanocobalamin), D-Panthenol, Folic Acid, Inositol, Pyridoxine HCL, Nicotinamide.
- ⚙️ **Aminoacids:** DL-Methionine, N-Acetyl-L-Methionine.
- ⚙️ **Phospholipid precursors:** Choline Chloride, Betaine HCL.
