trauma, or eating disorders.

High palatability
oral solution

18 Aminoacids / 14 Vitamins / 7 Minerals

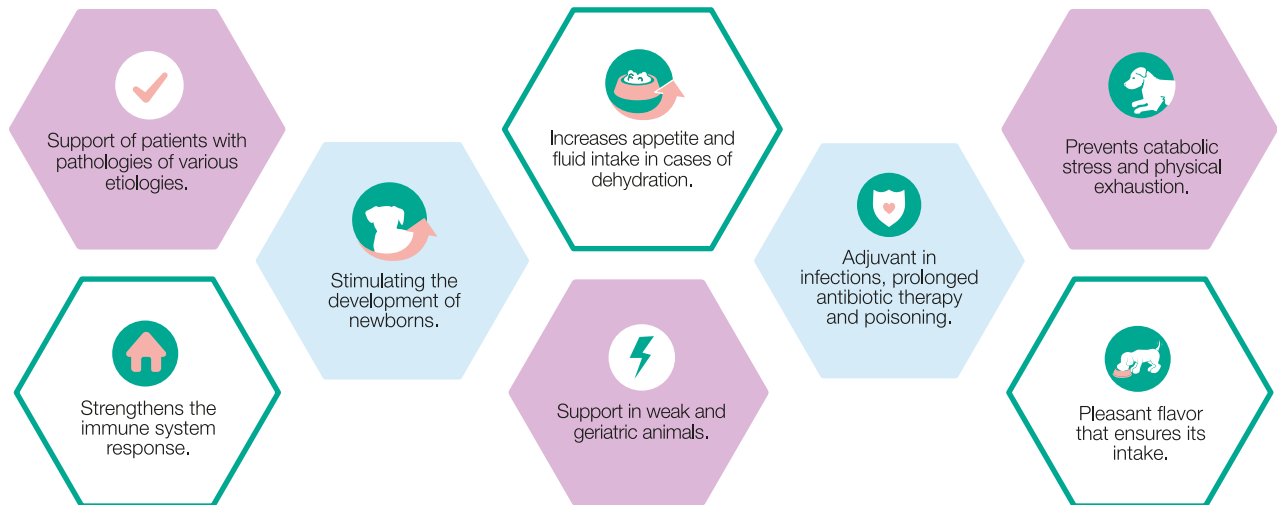

Electrolytes, Essential Fatty Acids

Unique with Nucleotix®

Petonic Recuperation

Comprehensive biostimulant with a unique formulation based on high quality **vitamins, amino acids, minerals and nucleotides** that allows effective absorption through the gastrointestinal tract, activating metabolic, hormonal functions, immune system and tissue regeneration to return to normal body function.

The clinical term **recovery** means restoring the health status to normal.

Petonic Recuperation is an innovative product, which provides the necessary nutritional support to canines during this critical period.

Designed for a complete recovery

Stimulates appetite and water intake

Optimize recovery time

Shorter hospitalization periods

Boosts the immune response

Anti-stress factor in critical periods

Promotes tissue regeneration

How does it work?
