ProBiolyte® WS

INCREASES PRODUCTION

Multi-element complex of vitamins, minerals, amino acids, electrolytes, probiotics and prebiotics.

WATER SOLUBLE

Production Line

Increases Production

ProBiolyte® ws optimizes organic functions and increases production efficiency of your animals. It is indicated for all stages of production and all farming systems.

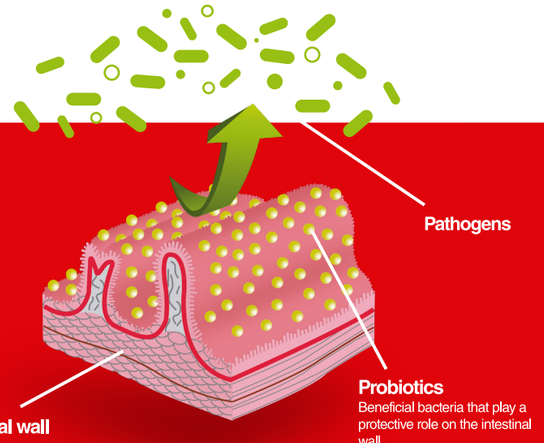

Aids in treatment of infectious diseases, toxicities, convalescence, dehydration and nutritional deficiency

Offers advanced nutritional support for reconstitution and nutrition of animals after antibiotherapy.

Improves feed conversion ratio and productive parameters since the first day.
Ideal for 1-day-old chicks and piglets at early stage.

Anti-stress factor in critical periods, such as transport, sudden changes in temperature, vaccination and changes in feed composition.

Exclusive formula with 12 probiotics

Probiotics have beneficial effects on gastrointestinal health, and impact positively on the bioavailability of nutrients. One of its main mechanisms of action is the "competitive exclusion": Probiotics prevent the pathogenic microorganisms to adhere by blocking out the connection points in the intestinal epithelium.

ProBiolyte® ws

Multi-element complex of vitamins, minerals, amino acids, electrolytes, probiotics and prebiotics.

- Stimulates growth of beneficial microorganisms and improves the balance of intestinal microbiota.
- Offers an adequate provision of vitamins: AD_3E, K_3, C and B complex, in order to supply nutritional requirements or deficiencies.
- The amino acids in its formulation are highly digestible, highly digestible supporting protein synthesis
- Beneficial probiotic-prebiotic relationship, given the presence of inulin as fundamental substrate for probiotics.
- Chelated minerals in its formulation provide greater absorption and bioavailability.

An innovative formulation designed to optimize productive parameters.

Benefits of Probiotics

- Prevent colonization of pathogenic bacteria.
- Balance the pH of intestinal environment.
- Inhibit bacterial growth.
- Restore intestinal microflora after antibiotic therapy.

ProBiolyte® ws

INCREASES PRODUCTION

Multi-element complex of vitamins, minerals, amino acids, electrolytes, probiotics and prebiotics.

Dosage

Water
Generally, 500 - 750 g/1000 L of water (0.5 - 0.75 g/L of water).

Feed
Generally, 200 - 250 g/t of feed (0.20 - 0.25 g/kg of feed).

15 g 1 kg 100 g

Unique Formula

Retinol Palmitate (Vit. A) 1 000 000 IU, Cholecalciferol (Vit. D_3) 250 000 IU, DL-alpha tocopherol acetate (Vit. E) 500 mg, Menadione sodium bisulfite (Vit. K_3) 450 mg, Thiamine hydrochloride (Vit . B_1) 110 mg, Riboflavin 5-phosphate sodium dihydrate (Vit.B_2) 150 mg, Nicotinamide (Vit. B_3) 1000 mg, Calcium pantothenate (Vit. B_5) 550 mg, Pyridoxine hydrochloride (Vit. B_6) 75 mg, Biotin (Vit. B_7) 40 mg, Folic Acid (Vit. B_9) 20 mg, Cyanocobalamin (Vit. B_{12}) 1.2 mg, Sodium pangamate (Vit. B_{15}) 20 mg, Inositol (Vit. BH) 50 mg, Ascorbic acid (as sodium ascorbate) (Vit. C) 100 mg, L-Aspartic acid 191.3 mg, Glutamic acid (as monosodium glutamate) 330 mg, L-Alanine 84 mg, L-Arginine Hydrochloride 46.5 mg, L-Cysteine hydrochloride monohydrate 42.8 mg, L-Phenylalanine 49.5 mg, Glycine 413.3 mg, L-Histidine hydrochloride monohydrate 42 mg, L-Isoleucine 111.8 mg, L-Leucine 177.8 mg, L-Lysine hydrochloride 1500 mg, DL-Methionine 1000 mg, L-Proline 100.5 mg, L-Serine 330 mg, L-Tyrosine 39.8 mg, L-Threonine 126 mg, L-Tryptophan 31.5 mg, L-Valine 106.5 mg, Anhydrous magnesium sulfate 5000 mg, Sodium chloride 5000 mg, Potassium chloride 8750 mg, Cobalt gluconate 32.8 mg, Copper edetate 187.5 mg, Chrome methionine 0.1 mg, Iron edetate 65 mg, Manganese edetate 162.5 mg, Sodium selenite pentahydrate 50 mg, Magnesium sulphate anhydrous 1250 mg, Potassium iodide 250 mg, Zinc edetate 187.5 mg, Inulin 500 mg, Probiotics 0.1 Billion CFU, excipients q.s. ad 100 g

(*) Probiotics blend: *Lactobacillus plantarum, Lactobacillus acidophilus, Lactobacillus rhamnosus, Bacillus subtilis, Bacillus licheniformis, Bifidobacterium longum, Bifidobacterium bifidum, Streptococcus thermophilus, Enterococcus faecium, Aspergillus oryzae, Saccharomyces cerevisiae, Bacillus coagulans.*
