Vetpro® Dermacare

Miconazole + Clorhexidine Shampoo

Miconazole Nitrate, Clorhexidine Gluconate

Antibacterial - Antifungal

Management and mitigation of seborrheic dermatitis linked to infections *Staphylococcus intermedius*, *Malassezia pachydermatis* and *Malassezia furfur*.

Supplementary treatment for dermatophytic infections caused by *Microsporum canis*, *Microsporum gypseum*, *Microsporum persicolor*, *Candida albicans* and *Trichophyton mentagrophytes* in dogs and cats.

Symptoms reliever linked to bacterial and fungal skin infections.

Vetpro® Dermacare

Sodium Salicylate, Zinc Gluconate and Pyridoxine Hydrochloride

Sodium Salicylate, Zinc Gluconate, Pyridoxine Hydrochloride

Antibacterial - Antifungal - Antiseborrheic - Keratolytic

Treatment and control of keratoseborrheic conditions (oily or dry forms) in dogs, cats, and horses.

It aids in normalizing the keratinization process and the sebum production to enhance skin health.

Symptoms reliever related to mild bacterial and fungal skin infections.

Vetpro® Dermacare

Clobetasol + Ofloxacin

Miconazole + Zinc Sulphate Lotion

Clobetasol Propionate, Ofloxacin, Miconazole Nitrate, Zinc Sulfate

Antifungal - Antibacterial - Anti-inflammatory

Treatment of dry, eczematous or allergic dermatitis with concurrent bacterial and/or fungal infections, including yeast-related skin conditions, pyoderma, and dermatophytosis.

Treatment for skin infections caused by bacteria and fungi that are sensitive to ofloxacin and miconazole, respectively.

Reliever and/or diminishment of inflammation, rashes, redness, and sensations of burning or stinging, soothing the skin and allowing it to heal.

Vetpro® Dermacare

Cypermethrin +

Miconazole Shampoo

Cypermethrin, Miconazole Nitrate

Ectoparasiticide - Antifungal

Treatment and prevention of ectoparasitic skin infestations (fleas, ticks, lice) sensitive to cypermethrin, concurrently with fungal dermatoses responsive to miconazole.

Treatment of *Malassezia pachydermatis*, *Malassezia furfur*, *Microsporum canis*, *Microsporum gypseum*, *Microsporum persicolor* and *Trichophyton mentagrophytes*.

Safe of use in pregnant and lactating animals.

200 mL
400 mL

Vetpro® Dermacare

Otic Cleanser

Lactic Acid, Salicylic Acid

Antiseptic - Antifungal - Antipruritic
Cerumenolytic - Keratolytic - Keratoplastic

Its lipid-soluble ingredient blend with the excess sebaceous matter in the follicles, facilitating exfoliation and aiding in the elimination of earwax, cellular detritus, and unpleasant odors.

Enhances the efficacy of therapeutic agents, making it optimal pre-treatment for external otitis treatment.

Regular maintenance and cleansing to auditory canal.

Preservation of the natural balance of microflora.

Minimization of pruritus and irritation.

Vetpro® Dermacare

Ketoconazole + Chlorhexidine + Cetrimide Shampoo

Ketoconazol, Clorhexidina Gluconato, Cetrimida

Antiseptic - Antifungal - Antiseborrheic - Antipruritic

Treatment and control of seborrheic dermatitis associated with *Staphylococcus pseudintermedius*, *Malassezia pachydermatis* and *Malassezia furfur* infections.

Supplementary treatment of dermatophyte infections due to *Microsporum canis*, *Microsporum gypseum*, *Microsporum persicolor*, *Candida albicans* and *Trichophyton mentagrophytes*, *Trichophyton equinum*, *M. equinum*, *T. mentagrophytes* and *T. verrucosum*.

Relief of symptoms associated with bacterial and fungal dermal infections.

Vetpro® Dermacare

Dry Foam Shampoo

Neem extract, Rosemary extract, Aloe vera, Jojoba oil, Vitamin E, D-Panthenol, Argan oil

Antiseborrheic – Moisturizing - Repellent

Indicated to control excess oil on the skin, providing a shiny, soft and hydrated coat.

Gentle and regenerative action on the skin

Does not remove the natural protective layer, thus preventing rough, dry and flaky skin.

Repellent action against lice and fleas.

Due to its pleasant smell, it has a deodorant effect.

Vetpro® Dermacare

Natuderma® Spray

Pinus roxiburgii oil, Eucalyptus globulus oil, Cedrus deodara oil, Azadirachta indica oil, Millettia pinnata oil, Curcuma longa oil, Ocimum sanctum oil, Melaleuca leucadendron oil, Cinnamomum camphora crystals.

Antibacterial - Antifungal - Antiseptic - Anti-inflammatory
Larvicide - Healing - Skin protector

Supplementary treatment of traumatic, surgical, infected and non-infected wounds, abrasions, lacerations and incisions, cuts, scratches, and bites.

Indicated prevention and treatment of interdigital injuries, burns, insect bites, canker sores and skin ulcers, irritated skin, pruritus (itching), skin rashes, pyodermas, myiasis (worm) and dermatitis.

Due to its composition it controls pyotraumatic, wet/dry eczema, dermatomycosis, dermatophytosis and scabies.
