CANI-TABS® IMMUNITY & ALLERGIES

Palatable tablets

Strengthened immunity - natural anti-allergy and anti-stress antioxidant

Formulation

Each tablet of Cani-Tabs ® Immunity & Allergies contains: Quercetin 37.50 mg, Colostrum 25.00 mg, Vaccinium myrtillus extract (Blueberry) 25.00 mg, Camellia sinensis extract (Green Tea) 25.00 mg, Fragaria vesca extract (Strawberries) 25.00 mg, Curcuma longa extract (Turmeric) 25.00 mg, Zinc 5.00 mg, Vitamin A 450 UI, Vitamin E 15 UI, Vitamin C 40 mg, excipients c.s.p. 1 tablet

Indications

Association of antioxidants and natural histamine blockers with an effect on the production and release of inflammation and allergy mediators and on autoimmune diseases and regulation of viral load. It provides immunoglobulins that provide immediate passive immunity and promotes optimal functioning of the immune system. For the support of the immune system in cases of vaccination and acute or chronic disease, as an antioxidant to reduce sensitivity to environmental stress and aging and as an adjuvant in allergic processes of any kind.

Dosage and Administration

Oral daily supplement. Due to its high palatability, it can be administered directly before meals or by disintegrating them and mixing them with them. Dogs up to 5 kg: 1-2 tablets daily. Dogs from 5 to 25 kg: 3-4 tablets daily. Dogs over 25 kg: 5-6 tablets daily as the maximum dose. Use for 12 weeks, suspend one week to start another period.

Commercial Presentation

Bottle x 100 tablets, Bottle x 60 tablets,
