CARPRODYL® 100

Tablet Oral

Non-steroidal anti-inflamatory for medium and large dogs

Formulation

Carprofen 100 mg, excipients q.s.ad. 1 tablet

Indications

Non-steroidal anti-inflammatory (NSAID) with anti-inflammatory, analgesic and antipyretic properties. Effective for relief of pain and inflammation associated to the muscle-skeletal system of dogs. It has demonstrated to be clinically effective in relief of symptoms associated to osteoarthritis in dogs, and is recommended in cases of synovitis, bursitis, arthritis, tendinitis, sprains, sacroiliac sub-luxations, traumatic injuries, post-surgery care, among others.

Dosage and Administration

1 tablet/11 kg of b.w. twice a day. The extension of the treatment will depend on the reaction observed. The veterinary physician has to evaluate the state of the animal 14 days after initiating the therapy. Administer through oral route.

Commercial Presentation

Bottle x 20 tablets,
