DORAQUEST® L.A.

Oral Gel

Oral endectocide exclusive for horses

Formulation

Doracmectin 1.75 g, excipients q.s.ad. 100 g

Indications

Broad spectrum and long action endectocide, effective in control of internal (gastrointestinal and pulmonary nematodes) and external parasitosis, like lice and problems of myiasis in horses. The special formula of doraQuest® l.a. provides a pleasant apple flavor, which makes a very likeable gel that facilitates the complete dosage.

Dosage and Administration

The 6.84 g syringe has 6 notches, each notch measures the product for 100 kg of body weight. Administer through oral route.

Commercial Presentation

Dosing syringe x 6.84 g,
