SYNOQUEST® 250

Injectable Solution

Anti-inflammatory, Anti-arthritic, Anti-arthritic and Regenerative of Articular Cartilage

Formulation

Each 1 mL contains: Sodium pentosan polysulfate 250 mg, Excipients q.s. 1 mL.

Indications

synoQuest® 250 is indicated for the treatment of degenerative joint disease and non-infectious osteoarthritis, osteoarthrosis, hydrarthrosis and other degenerative arthropathies; chondropathies, synovitis and tendonitis.

Dosage and Administration

Intramuscular injection, at a rate of 3 mg of Pentosan/kg of body weight (in practice 1 mL/80 kg of body weight); once (1) per week for four (4) weeks. Repeating the same can be done every three (3) months or at the discretion of the responsible veterinary professional.
Intra-articular injection: at a rate of 1 mL (250 mg). It can be repeated at weekly intervals for 3-4 treatments. More than one joint can be treated at a time.

Commercial Presentation

Bottle x 50 mL, 6 mL bottle,
